# DISCOVER. DESIGN. DELIVER.

---

Our group of companies are the industry leaders in our respective fields. We discover, design and deliver technology solutions to businesses both nationwide and internationally.

## **nation****data** Scalably Simple.

Nation Data delivers and supports ICT systems for medium to large businesses across the globe. Our service offering includes; management of data centre infrastructure, 24x7 helpdesk support of end user applications and devices, integration services for enterprise cloud applications and large-scale custom application development solutions.

thirty4 is our think-tank, this is where our applications are designed and created by our team of dedicated engineers and solution architects. Our applications are used by some of the worlds most well known and respected organisations and are considered crucial to their ongoing success and effecient operations. thirty4 provide applications to Rio Tinto, Santos, Origin, Auckland City Council, OneSteel to name just a few. We are also the primary technology partner for Navman Wireless globally.

NTD is a multi-award winning Telstra Partner, and has been servicing businesses throughout Australia for over 14 years. NTD provides mobility, fixed line, data, private networks, unified communications and cloud solutions all from Australia's leading network, Telstra. NTD is the largest Cloud and Data partner for Telstra in Queensland and are in the top 5 performing partners for Telstra nationally. Our coverage of Queensland is unmatched by other providers and our vast partner network allows us to service all of Australia with confidence.

***"It is our pleasure to recommend the services of NTD.***

***During the past 8 months, our construction management team has worked with NTD on a large scale implementation project for a Contractor & Cost Management Application.***

***We believe the company offers first class quality, service and price.***

***This project has been difficult, complex and time pressured from concept to implementation with very broad and evolving scope of work of which the team at NTD have managed with dedication and commitment to delivery to specification and on time.***

***This illustrates their attention to detail and concern for quality which has been unrelenting even under extreme pressure to meet tight deadlines and at times gargantuan expectations".***
